

ALDRED RECAÑA

Software Developer

San Pablo, Laguna, Philippines | 09682549426 | aldrecrecana0915@gmail.com | github.com/aldrecrecana |

SUMMARY

Third-year BS Information Technology student with hands-on experience building web applications and REST APIs using Java/Spring Boot, PHP/Laravel, and C#/ASP.NET Core with PostgreSQL. Experienced in layered architecture, CRUD API design, and database design. Currently developing a capstone project that combines a Laravel web system with an IoT GPS tracking device. Seeking an internship or entry-level backend developer role.

EDUCATION

Polytechnic University of the Philippines, Calauan Campus

2024 – 2028

Bachelor of Science in Information Technology

Relevant Coursework: Database Management, Human-Computer Interaction, Object-Oriented Programming, Integrative Programming, Networking, Web Development, Machine Learning Basics

TECHNICAL SKILLS

Languages: Java, C#, PHP, JavaScript, SQL, HTML, CSS

Frameworks: Spring Boot, Laravel, ASP.NET Core, Entity Framework Core, Blade

Databases: PostgreSQL, MySQL, Microsoft Access

Tools: Git, GitHub, VS Code, Postman, pgAdmin, Laravel Herd, Laragon, Docker, Maven, Figma

Spoken Languages: Filipino (Native), English (Professional Working Proficiency)

Concepts: REST API Design, Layered Architecture, OOP, CRUD, ERD and Database Normalization, JPA Relationships, Indexing and Query Analysis

PROJECTS

FreightPath – IoT-Based Driver Management System (Capstone)

Github: github.com/aldrecrecana/freightpath

2026

Laravel, PostgreSQL, Leaflet.js, OpenStreetMap, ESP32, GPS Module

- Designing a web-based system for small and medium trucking operations in the Philippines covering driver management, schedule management, GPS tracking, route visualization, and transaction history.
- Building the Laravel backend and PostgreSQL database; integrating Leaflet.js, OpenStreetMap, Nominatim, and OpenRouteService for map and route display.
- Developing a GPS tracker prototype using an ESP32, NEO-6M GPS, and SIM800L module that sends location data to the backend.
- Wrote the research paper chapters (Introduction and Review of Related Literature) in APA 7th edition.

Pokédex Application (Group Project)

Github: github.com/aldrecrecana/pokédex-project

2026

Java/Spring Boot, C#/ASP.NET Core, Docker, HTML/CSS/JavaScript, PokeAPI

- Built the same application in both Spring Boot and ASP.NET Core with a REST API backend and a HTML/CSS/JavaScript frontend.
- Used Docker and Docker Compose for containerization and prepared full project documentation.

CERTIFICATIONS

Basic Web Development – Zuitt September 2026

AI Safety, Data Privacy & Misinformation Awareness (Certificate of Participation) – AI Ready ASEAN, ASEAN Foundation September 2026

National Certificate II (NC II) in Computer Systems Servicing – TESDA June 2024
